TITLE

National Survey on Self-Reported Health 2014

ABBREVIATION OR ACRONYM

NSSRH 2014

COUNTRY

Name	Country code
Sri Lanka	LKA

STUDY TYPE

Other Household Health Survey [hh/hea]

ABSTRACT

A survey module was attached to Sri Lanka Labour Force Survey (LFS) 2014 to collect data on health conditions of people in the country.

This health survey was conducted at household level and self-reported (without medical tests or clinical proofs) health associated data was collected from all individuals of the selected households.

The statistics estimated through the survey will be immensely useful for the government, policy makers to plan health services, especially for resource allocation, for preventive actions and to provide clinical care. The survey covers all districts of the country therefore statistics will be published at district level. Since all the data collected in the health module are self-reported, the facts are based on the level of awareness of the respondent. Further this is the first ever island-wide household survey on health and this was conducted during 12 months period in 2014.

a. Subjects covered at the survey:

1. Prevalence by type of illness – chronic/ acute
2. Place from which the treatment was received for chronic/ acute illness
3. Accidents occurred
- 4 .Number of times received treatment for accidents
5. Place where the accident occurred
6. Health screening
7. Smoking and alcohol use
8. Availability of health insurance

Illnesses covered at the survey:

Following chronic and acute illnesses were covered at the survey.

Chronic illness- Diabetes, High Blood Pressure, Heart Diseases, Stroke/ Paralyzed, Cancer, Asthma, Mental illness, Arthritis, Epilepsy, Other

Acute illness- Diarrhoea, Vomiting, Fever, Cough, Headache, Stomachache, Wheezing, Sore throat, Joint aches, Skin diseases

KIND OF DATA

Sample survey data [ssd]

UNIT OF ANALYSIS

Persons living in housing units and excludes the institutional population.

Sampling

SAMPLING PROCEDURE

Sampling plan and the sampling frame

Two stage stratified sampling procedure is adopted to select a sample of 25,000 housing units to be enumerated at the survey. The master sampling frame prepared for 2011 - Census of Population and Housing is used as the sampling frame for the sample selection of LFS in 2014.

Sample size

Annual sample of 25,000 housing units were selected to give reliable estimates by district level in the year 2014.

Sample Allocation

In 2014, 2500 Primary sampling Units (PSU's) were allocated to each district and to each sector (Urban, Rural and Estate) by using the Neymann allocation method which considers the variance of unemployment rate as usually (because the sampling of the health survey is the same as LFS) The allocated sample for each district then equally distributed for 12 months.

Selection of Primary Sampling Units (PSU)

Primary sampling units were the census blocks demarcated at the Census of Population and Housing - 2011.

Selection of Secondary Sampling Units (SSU)

Secondary Sampling Units were the housing units in the selected 2500 primary sampling units (census blocks). From each selected primary sampling unit, 10 housing units (SSU) were selected for the survey using systematic random sampling method.

DATA COLLECTION MODE

Face-to-face [f2f]

SUPERVISION

A Deputy Director/Senior Statistician/Statistician attached to each district secretariat were responsible for coordination and supervision activities. Sample surveys division of the Department was responsible for implementation of the survey.

DATA COLLECTION NOTES

The field work of the survey for the year 2014 was conducted from January to December. The census blocks prepared at 2012 population census were used as primary sampling units.

A listing operation for primary sampling unit update was conducted, before the selection of secondary sampling units.

The field staff of the DCS involved in survey data collection activities. These officers were trained before they were entrusted with the survey operations. A Deputy Director/Senior Statistician/Statistician attached to each district secretariat were responsible for coordination and supervision activities. Sample surveys division of the Department was responsible for implementation of the survey.

CONFIDENTIALITY

Under the Statistical ordinance, micro data cannot be released with identifications for public use. Procedures are in place to ensure that information relating to any particular individual person, household or undertaking will be kept strictly confidential and will not be divulged to external parties. Information on individual or individual Household/establishment will not be divulged or published in such a form that will facilitate the identification of any particular person or establishment as the data have been collected under the Census/Statistical ordinance, according to which the information at individual level cannot be divulged and such information is strictly confidential.

ACCESS CONDITIONS

The dataset has been anonymized and is available as a Public Use Dataset. It is accessible to all for statistical and research purposes only, under the following terms and conditions:

1. The data and other materials will not be redistributed or sold to other individuals, institutions, or organizations without the written agreement.
2. The data will be used for statistical and scientific research purposes only. They will be used solely for reporting of aggregated information, and not for investigation of specific individuals or organizations.
3. No attempt will be made to re-identify respondents, and no use will be made of the identity of any person or establishment discovered inadvertently.

4. No attempt will be made to produce links among datasets provided by the Department or among data from the Department and other datasets that could identify individuals or organizations.
5. Any books, articles, conference papers, theses, dissertations, reports, or other publications that employ data obtained from the Department will cite the source of data in accordance with the Citation Requirement provided with each dataset.
6. An electronic copy of all reports and publications based on the requested data will be sent to the Department

The following rules apply to micro data released by the Department of Census and Statistics.

- Only the requests of Government Institutions, Recognized Universities, Students, and selected international agencies are entertained. However, the Data users are required to strictly adhere to the terms stipulated in the agreement form.
- All the data requests should be made to Director General (DG) of the DCS as the sole authority of releasing data is vested with the DG, DCS. DCS of Sri Lanka reserves sole right to approve or reject any data request made depending on the confidential nature of the data set and intended purpose of the study or analysis.
- Requests for micro data should be made through the agreement form designed by DCS for this purpose (Form D.R.1). The agreement form should be filled in triplicate and the Study/project proposal should accompany the filled agreement form. If requests are made for the micro data of more than one survey, a separate agreement should be signed.
- If the data request is from a student a letter from the respective Dept. Head/Dean/Supervisor, recommending the issue of data, should also be accompanied.
- If the request is approved only 25% of the data file is released at the first stage. The release of the total data file is considered only after reviewing the draft report prepared on the basis of the 25% sample data file.
- The released Data file should be used only for the specific study/Analysis mentioned in the agreement form and shall not be used for any other purpose without the prior approval of the Director General of the DCS. Moreover, Copies of the microdata file, obtained from the DCS, shall not be given to anyone else without the prior written approval of the Director General of the DCS.
- The draft report of the Study/Analysis should be submitted to the DCS and the concurrence of the DG, DCS, should be obtained before publishing it. Once published, a copy of the final report should be submitted to the DCS.
