## Identification

### SURVEY ID NUMBER

NER\_2023\_DIEM-HS-R6\_v01\_M\_v01\_A\_ESS

### TITLE

Data in Emergencies Monitoring System - Household Survey 2023

### SUBTITLE

Round 6

### ABBREVIATION OR ACRONYM

DIEM-HS-R6 2022

### COUNTRY

Name	Country code
Nlger	NER

### STUDY TYPE

Agricultural Survey [ag/oth]

### ABSTRACT

FAO has developed a monitoring system in 26 food crisis countries to better understand the impacts of various shocks on agricultural livelihoods, food security and local value chains. The Monitoring System consists of primary data collected from households on a periodic basis (more or less every four months, depending on seasonality).

Data was collected through telephone surveys in all regions of Niger (Agadez, Diffa, Dosso, Maradi, Tahoua, Tillabéry and Zinder), with the exception of the urban region of Niamey. Between 223 and 266 households were selected in each region, for a total sample of 1676 households interviewed. The survey was representative at admin level 1.

For more information, please go to <https://data-in-emergencies.fao.org/pages/monitoring>

### KIND OF DATA

Sample survey data [ssd]

### UNIT OF ANALYSIS

Households

## Scope

### NOTES

[The survey collected information on the following areas:

- Household: household information
- Income sources, shocks: income changes, shocks experienced by households
- Crop production: crops planted, area planted, area harvested, crop production difficulties
- Crop marketing: crop sale difficulties, crop sale price
- Livestock production: types of livestock present on holding, number of livestock, livestock production difficulties
- Livestock marketing: livestock sale, livestock sale difficulties, livestock sale price
- Fisheries production: fish activity, comparison of fish production
- Fisheries marketing: fish sale, fish sale difficulties, fish sale price
- Food security and consumption: food consumption, food utilization, coping strategies
- Needs assistance: open questions on the needs for assistance

## Coverage

FAO's Special Fund for Emergency and Rehabilitation (SFERA)

## Sampling

### SAMPLING PROCEDURE

Between 223 and 266 households were selected in each region, for a total sample of 1 676 households interviewed. The survey was representative at admin level 1.

The results of this sixth-round survey have been compared to those of round 4 (lean season, August 2022) and round 5 (harvest season, December 2022).

Surveys are designed based on country-specific needs, objectives, and constraints. They aim to achieve a 10% margin of error, a 95% confidence level, administrative-level granularity, and sufficient sample sizes for key target populations, including agricultural households.

### WEIGHTING

The survey was regionally representative and the sample design developed with a margin of error of 8.5 percent. Weights were calculated based on population size and a wealth indicator (access to drinking water).

## Data collection

### DATES OF DATA COLLECTION

Start	End
2023	2023

### DATA COLLECTION MODE

Computer Assisted Telephone Interview [cati]

## questionnaires

### QUESTIONNAIRES

A link to the questionnaire has been provided in the documentations tab. \*

## data\_processing

### DATA EDITING

The datasets have been edited and processed for analysis by the Needs Assessment team at the Office of Emergencies and Resilience, FAO, with some dashboards and visualizations produced. For more information, see <https://data-in-emergencies.fao.org/pages/countries>.

### \*\*STATISTICAL DISCLOSURE CONTROL (SDC)\*\*

The dataset was anonymized using Statistical Disclosure methods by the Data in Emergencies Hub team and reviewed by the Statistics Division of FAO. All direct identifiers have been removed prior to data submission.

## Access policy

### CONTACTS

Name	Affiliation	Email	URL
Office of Emergencies and Resilienc	Food and Agriculture Organization	emergency-needs-assessments@fao.org	<a href="#">Link</a>

### CONFIDENTIALITY

The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO.

### ACCESS CONDITIONS

Micro datasets disseminated by FAO shall only be allowed for research and statistical purposes. Any user which requests access working for a commercial company will not be granted access to any micro dataset regardless of their specified purpose. Users requesting access to any datasets must agree to the following minimal conditions:

- The micro dataset will only be used for statistical and/or research purposes;
- Any results derived from the micro dataset will be used solely for reporting aggregated information, and not for any specific individual entities or data subjects;
- The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO;
- The micro dataset cannot be re-disseminated by users or shared with anyone other than the individuals that are granted access to the micro dataset by FAO.
