#### SECTION U. EXERCISE

U1	<b>THIS RESPONDENT IS ANSWERING QUESTIONS FOR: SEE STICKER ON PAGE 1.</b>	<b>1 OWN CASTE IN NEARBY VILLAGE 2 ANYONE IN NEARBY VILLAGE</b>
	We would like you to participate in a simple exercise as part of our research.	
	I will give you a box that contains 10 shampoo packets rolls (one roll contains 3 sachets). Each shampoo packet roll is worth Rs. 9, for a total of Rs. 90. You may leave as many of the packets rolls in the box as you wish and take out the number you would like to keep. Then, close the box, lock it and return it to me. I will not open it, but will return it to the study team. In a few days, the study team will give the shampoo packets remaining in your box to a person selected by lottery from [your caste in a nearby village/a nearby village] who is also in the study. The person receiving the shampoo packets will not know who you are, and you will not know who he or she is. Be assured that the number of packets you leave in the box will reach someone and that person will not know who gave it to him/her. We are doing this same small exercise with numerous people in your village and others nearby.	
U2	<b>TO BE FILLED IN BY STUDY TEAM MEMBER (NOT THE FIELD INVESTIGATOR):</b> Number of packets remaining in box	_____
