

Baseline Data – Description of datasets

Surveys (2): Household head (1); and Spouse (1)

- Two survey datasets and their associated rosters are included. See below table for the two survey datasets to see which rosters belong to which survey, and the key to be used to merge these.
- The parent dataset for the household head survey is: AGP2_Household_Questionnaire_Baseline, with the unique IDs: ID_HH (household-level ID); ID_HHH (individual level ID); and interview__key (ID from CAPI to be used to merge rosters)
- The parent dataset for the spouse survey is: AGP2_Spouse_Questionnaire_Baseline, with the unique IDs: ID_HH (household-level ID); ID_SP (individual level ID); and interview__key (ID from CAPI to be used to merge rosters)

| Household head | | | Spouse | | |
|---|-------------------------------------|------------------------|---------------------|----------------|-------------------------|
| Name of dataset | Matching ID | Unique ID | Name of dataset | Matching ID | Unique ID |
| AGRICULTURAL PRACTICES – PARCEL ROSTER | interview__key | PARCEL_ROSTER__id | AGRICULTURAL ASSETS | interview__key | AGRICULTURAL_ASSETS__id |
| AGRICULTURAL PRACTICES – PARCEL – FIELD-MEHER | interview__key PARCEL_ROSTER__id | FIELD_ROSTER_MEHER__id | CHILD HEALTH | interview__key | CHILD_HEALTH__id |
| AGRICULTURAL PRACTICES – PARCEL-FIELD-BELG | interview__key PARCEL_ROSTER__id | FIELD_ROSTER_BELG__id | HH FOOD DIVERSITY | interview__key | Food_Group__id |
| AGRICULTURAL PRODUCTION – CROPS | interview__key | Crop_production__id | | | |
| AGRICULTURAL PRODUCTION – ANIMAL SOURCE FOOD | interview__key | Animal_source_food__id | | | |
| HH ROSTER | interview__key | Household_Roster__id | | | |
