

Table H-12B (E)	HOUSEHOLDS AND DISTRIBUTION OF 1000 POPULATION BY AVAILABILITY OF ELECTRICITY AND TOILET FACILITIES AND OWNERSHIP STATUS OF HOUSE OCCUPIED
------------------------	---

Level of presentation: India / State / District / Tahsil / Town
Corresponding Table of 1991 Census: Table H-4

This table presents the distribution of households by ownership status of houses occupied and availability of electricity and toilet facilities to the households. This table excludes institutional households for which the information on ownership status of house occupied and availability of electricity and toilet facilities was not collected. This table also shows the distribution of 1000 population by ownership status of houses occupied and availability of electricity and toilet facilities. The ownership status of occupied census houses has been shown in three categories viz., owned, rented and any other. If a household is occupying the census house owned by itself and is not making payments in the form of rent to anyone, then the household has been considered as living in owned house. A household has been treated as living in rented house, if rent is paid or contracted for by the household in cash or even in kind. The third category, 'any other', includes the households living in rent free accommodation and also those who live in houses where ownership either of the land or of the structure does not belong to the household. This also includes households living in houses erected on encroached land. This table excludes the institutional households for which the data relating to ownership status and availability of electricity and toilet facilities were not collected. The data in this table are presented for total, rural and urban areas separately.

The table is available only in electronic format.
