

<b>Table H-13</b>	<b>NUMBER OF HOUSEHOLDS AVAILING BANKING SERVICES AND NUMBER OF HOUSEHOLDS HAVING EACH OF THE SPECIFIED ASSET</b>
-------------------	-------------------------------------------------------------------------------------------------------------------

*Level of presentation: India / State / District / Tahsil / City  
New Table in 2001 Census*

This table gives the number of households availing banking services and also those possessing the specified household asset(s). This table excludes institutional households for which the questions relating to availing of banking services and possessing of various household assets were not canvassed. If one or more members of the household were availing banking facilities, the household was treated as availing the banking services. The household assets for which the data are incorporated in the table are: Radio, Transistor; Television; Telephone; Bicycle; Scooter, Motorcycle, Moped; and Car, Jeep, Van. The households, which have none of these assets, are also shown separately. The household assets are treated as available only if they are in reasonable working order. Car or Jeep or Van is considered as available only if one or more members in the household are using it for their own use. This is a new table that presents data on living standard of the households. The data in this table are presented for total, rural and urban areas separately.

The tahsil and city level data are available only in electronic format.
