### Subtask 1: Receptive Oral Language

This section is not timed and there are no stimuli for the child (to be administered orally).

Interviewer states: "We are going to play a game, ok? I am going to give you instructions, and we can see if you can follow what I say."

Example 1: Interviewer states: "Point to your nose". The interviewer points to his nose, and encourages the child to do the same. If the child points correctly, say "Bravo, that is correct!" If the child does not point, repeat the instructions and ask, "Can you point to your nose?"

Example 2: Interviewer states: "Point to your head". This time the interviewer does not point, but encourages child to point. If the child does not understand, the Interviewer states the instructions again and repeats the examples. If the child understands, start the test.

If child makes 5 consecutive errors, stop and continue to the next subtask. If child does not respond, mark "No Response", and continue to the next subtask. Ask each question in Haoussa and note the response in the questionnaire. **RESPONSE CODES: 1= CORRECT, 2= INCORRECT, 3= NO RESPONSE**

<b>Subtask 3: Listening Comprehension</b>												
This is not a timed exercise and this is administered orally only. The Interviewer states “Now, I am going to read to you a story aloud ONE TIME. Afterwards, I will ask you some questions about the story. Listen carefully, and after you will answer the questions the best you can. Okay? Do you understand what are you supposed to do? Let’s begin! Listen carefully.”												
The interviewer reads aloud the short story, ONE TIME, slowly, (about 1 word per second), in the language of the test.												
After reading the text, ask the child each comprehension question and note the response. If the child does not give any response after 10 seconds, repeat the question, and give the child another 5 seconds to respond. If the child still does not respond, go on to the next question.

#### Subtask 4: Letter Identification (name or sound)

This is a timed exercise and is administered using the test booklet.

Show the test booklet to the child for subtask 4. Explain the subtask in the child's maternal language, using the examples in the booklet. After explaining the examples, say "Ok? Do you understand? When I say "Start", point to each letter with your finger as you read it. Read from left to right, line by line. Do you understand what I am asking? Put your finger on the first letter. Ready? Try to read quickly and correctly. Begin."

Start the timer when the child reads the first letter **name** or **sound**. If the child does not respond after 10 seconds, mark 'Auto Stop'. Count self-corrections as correct. Stay quiet, except if the child hesitates on a letter for 3 seconds. In this case, point to the next letter and say "Please go on." Mark the letter skipped as incorrect on the test sheet.

After 60 seconds say, "Stop and Thank you." Note the total number correct. If the child read everything in less than one minute, note the exact number of seconds remaining on the timer. Otherwise, if the child has not finished the exercise, mark '00' seconds.

Auto stop rule: If the child does not give a single correct response in the first 10 letters, gently tell the child to stop, and mark 'Auto Stop'. Say "Thank you" and go on to the next subtask.

HL1.	HL2. CHILD'S NAME	SUBTASK 6- ORAL READING FLUENCY							SUBTASK 7 – READING COMPREHENSION									
		<p>Give the child 60 seconds to read as much of the text as possible. Note the number of words read correctly per each line. Show the child the test booklet.</p> <p>“Here is a story. Now I would like you to read it out loud, quickly and correctly, and afterwards, I will ask you some questions. Start here when I tell you. If you don’t know a word, continue to the next word. Ready? Start.”</p> <p>Give the child 60 seconds to read all that he can.</p> <p>Stay quiet, except when providing answers as follows: if the child hesitates for 3 seconds, point to the next word and say “Please go on.” Mark the word as incorrect on the test sheet.</p> <p>Auto stop rule: if the child cannot read correctly a single word in the first two lines, stop the test and note “auto-stop”. Say “thank you” and end the test.</p> <p>NOTE THE NUMBER OF WORDS READ CORRECTLY FOR EACH LINE. IF THE CHILD READ EVERYTHING IN LESS THAN ONE MINUTE, NOTE THE EXACT NUMBER OF SECONDS REMAINING ON THE TIMER. OTHERWISE, MARK ‘00’ SECONDS.</p>							<p>After the child has finished reading, <b>take the card from the child</b> and ask the first question. If the child does not give any response after 10 seconds, repeat the question, and give the child another 5 seconds to respond. If the child still does not answer, go to the next question. Ask only those questions that correspond to the lines of text read by the child, up to the last line the child was able to read.</p> <p>“Now I am going to ask you a few questions about the story you just read.”</p> <p>Pose the corresponding questions to the child, in Haoussa.</p> <p>Yanzu zan yi miki/maka wasu yan tambayoyi game da labarin da kika/ka karanta. Ki/ka yi kokari Kika/ka bada amsa gwargwadon iyawarka/ki</p> <p>A. Yaw wace rana ce ? B. Minene Raabi ta ke son ta sayé? C. Wane irin kalan riga ne Rabi take nema ? D. Ta samu jan riga ? E. <b>Subtask 1: Receptive Oral Language</b>												
<p>This section is not timed and there are no stimuli for the child (to be administered orally).</p> <p>Interviewer states: "We are going to play a game, ok? I am going to give you instructions, and we can see if you can follow what I say."</p> <p>Example 1: Interviewer states: "Point to your nose"." The interviewer points to his nose, and encourages the child to do the same. If the child points correctly, say "Bravo, that is correct!" If the child does not point, repeat the instructions and ask, "Can you point to your nose?"</p> <p>Example 2: Interviewer states: "Point to your head". This time the interviewer does not point, but encourages child to point. If the child does not understand, the Interviewer states the instructions again and repeats the examples. If the child understands, start the test.</p> <p>If child makes 5 consecutive errors, stop and continue to the next subtask. If child does not respond, mark "No Response", and continue to the next subtask.</p> <p>Ask each question in Zarma and note the response in the questionnaire.</p> <p><b>RESPONSE CODES: 1= CORRECT, 2= INCORRECT, 3= NO RESPONSE</b></p>

### Subtask 3: Listening Comprehension

This is not a timed exercise and this is administered orally only. The Interviewer states “Now, I am going to read to you a story aloud ONE TIME. Afterwards, I will ask you some questions about the story. Listen carefully, and after you will answer the questions the best you can. Okay? Do you understand what are you supposed to do? Let’s begin! Listen carefully.”

The interviewer reads aloud the short story, ONE TIME, slowly, (about 1 word per second), in the language of the test.

After reading the text, ask the child each comprehension question and note the response. If the child does not give any response after 10 seconds, repeat the question, and give the child another 5 seconds to respond. If the child still does not respond, go on to the next question.

#### Subtask 4: Letter Identification (name or sound)

This is a timed exercise and is administered using the test booklet.

Show the test booklet to the child for subtask 4. Explain the subtask in the child's maternal language, using the examples in the booklet. After explaining the examples, say "Ok? Do you understand? When I say "Start", point to each letter with your finger as you read it. Read from left to right, line by line. Do you understand what I am asking? Put your finger on the first letter. Ready? Try to read quickly and correctly. Begin."

Start the timer when the child reads the first letter **name** or **sound**. If the child does not respond after 10 seconds, mark 'Auto Stop'. Count self-corrections as correct. Stay quiet, except if the child hesitates on a letter for 3 seconds. In this case, point to the next letter and say "Please go on." Mark the letter skipped as incorrect on the test sheet.

After 60 seconds say, "Stop and Thank you." Note the total number correct. If the child read everything in less than one minute, note the exact number of seconds remaining on the timer. Otherwise, if the child has not finished the exercise, mark '00' seconds.

Auto stop rule: If the child does not give a single correct response in the first 10 letters, gently tell the child to stop, and mark 'Auto Stop'. Say "Thank you" and go on to the next subtask.

<b>Subtask 3: Listening Comprehension</b>												
<p>This is not a timed exercise and this is administered orally only. The Interviewer states “Now, I am going to read to you a story aloud ONE TIME. Afterwards, I will ask you some questions about the story. Listen carefully, and after you will answer the questions the best you can. Okay? Do you understand what are you supposed to do? Let’s begin! Listen carefully.”</p> <p>The interviewer reads aloud the short story, ONE TIME, slowly, (about 1 word per second), in the language of the test.</p> <p>After reading the text, ask the child each comprehension question and note the response. If the child does not give any response after 10 seconds, repeat the question, and give the child another 5 seconds to respond. If the child still does not respond, go on to the next question.</p>

<b>Subtask 4: Letter Identification (name or sound)</b>														
<p>This is a timed exercise and is administered using the test booklet.</p> <p>Show the test booklet to the child for subtask 4. Explain the subtask in the child's maternal language, using the examples in the booklet. After explaining the examples, say "Ok? Do you understand? When I say "Start", point to each letter with your finger as you read it. Read from left to right, line by line. Do you understand what I am asking? Put your finger on the first letter. Ready? Try to read quickly and correctly. Begin."</p> <p>Start the timer when the child reads the first letter <b>name</b> or <b>sound</b>. If the child does not respond after 10 seconds, mark 'Auto Stop'. Count self-corrections as correct. Stay quiet, except if the child hesitates on a letter for 3 seconds. In this case, point to the next letter and say "Please go on." Mark the letter skipped as incorrect on the test sheet.</p> <p>After 60 seconds say, "Stop and Thank you." Note the total number correct. If the child read everything in less than one minute, note the exact number of seconds remaining on the timer. Otherwise, if the child has not finished the exercise, mark '00' seconds.</p> <p>Auto stop rule: If the child does not give a single correct response in the first 10 letters, gently tell the child to stop, and mark 'Auto Stop'. Say "Thank you" and go on to the next subtask.</p>

### Subtask 5: Word Identification

This is a timed exercise and is administered using the test booklet.

Show the test booklet to the child for subtask 5. Explain the subtask in the child's maternal language, using the examples in the booklet. After explaining the examples, say "Ok? Do you understand what I am asking you to do? When I say "Start", read the words from left to right, line by line. At the end of the line, continue to the next line. Try to read quickly and correctly. Ready? Begin."

Start the timer when the child reads the first word. If the child does not respond after 10 seconds, mark 'Auto Stop'. Count self-corrections as correct. Stay quiet, except if the child hesitates for 3 seconds. In this case, point to the next word and say "Please go on." Mark the word as incorrect on the test sheet.

After 60 seconds say, "Stop and Thank you." Note the total number correct. If the child read everything in less than one minute, note the exact number of seconds remaining on the timer. Otherwise, if the child has not finished the exercise, mark '00' seconds.

Auto stop rule: If the child does not give a single correct response in the first 5 words, gently tell the child to stop, and mark 'Auto Stop'. Say "Thank you" and go on to the next subtask.

### Subtask 1: Receptive Oral Language

This section is not timed and there are no stimuli for the child (to be administered orally).

Interviewer states: "We are going to play a game, ok? I am going to give you instructions, and we can see if you can follow what I say."

Example 1: Interviewer states: "Point to your nose". The interviewer points to his nose, and encourages the child to do the same. If the child points correctly, say "Bravo, that is correct!" If the child does not point, repeat the instructions and ask, "Can you point to your nose?"

Example 2: Interviewer states: "Point to your head". This time the interviewer does not point, but encourages child to point. If the child does not understand, the Interviewer states the instructions again and repeats the examples. If the child understands, start the test.

If child makes 5 consecutive errors, stop and continue to the next subtask. If child does not respond, mark "No Response", and continue to the next subtask.

Ask each question in Fulfulde and note the response in the questionnaire.

<b>SUBTASK 3: ORAL COMPREHENSION</b>												
<p>This is not a timed exercise and this is administered orally only. The Interviewer states “Now, I am going to read to you a story aloud ONE TIME. Afterwards, I will ask you some questions about the story. Listen carefully, and after you will answer the questions the best you can. Okay? Do you understand what are you supposed to do? Let’s begin! Listen carefully.”</p> <p>The interviewer reads aloud the short story, ONE TIME, slowly, (about 1 word per second), in the language of the test.</p> <p>After reading the text, ask the child each comprehension question and note the response. If the child does not give any response after 10 seconds, repeat the question, and give the child another 5 seconds to respond. If the child still does not respond, go on to the next question.</p>

### Subtask 5: Word Identification

This is a timed exercise and is administered using the test booklet.

Show the test booklet to the child for subtask 5. Explain the subtask in the child's maternal language, using the examples in the booklet. After explaining the examples, say "Ok? Do you understand what I am asking you to do? When I say "Start", read the words from left to right, line by line. At the end of the line, continue to the next line. Try to read quickly and correctly. Ready? Begin."

Start the timer when the child reads the first word. If the child does not respond after 10 seconds, mark 'Auto Stop'. Count self-corrections as correct. Stay quiet, except if the child hesitates for 3 seconds. In this case, point to the next word and say "Please go on." Mark the word as incorrect on the test sheet.

After 60 seconds say, "Stop and Thank you." Note the total number correct. If the child read everything in less than one minute, note the exact number of seconds remaining on the timer. Otherwise, if the child has not finished the exercise, mark '00' seconds.

Auto stop rule: If the child does not give a single correct response in the first 5 words, gently tell the child to stop, and mark 'Auto Stop'. Say "Thank you" and go on to the next subtask.

FULFULDE SUBTASK 6 & 7		VILLAGE ID:  __ __ __		HOUSEHOLD NUMBER  __ __ __		FU6 & FU7												
HL1.	HL2. CHILD'S NAME	<b>SUBTASK 6- ORAL READING FLUENCY</b> Give the child 60 seconds to read as much of the text as possible. Note the number of words read correctly per each line. Show the child the test booklet. "Here is a story. Now I would like you to read it out loud, quickly and correctly, and afterwards, I will ask you some questions. Start here when I tell you. If you don't know a word, continue to the next word. Ready? Start." Give the child 60 seconds to read all that he can. Stay quiet, except when providing answers as follows: if the child hesitates for 3 seconds, point to the next word and say "Please go on." Mark the word as incorrect on the test sheet. Auto stop rule: if the child cannot read correctly a single word in the first two lines, stop the test and note "auto-stop". Say "thank you" and end the test. NOTE THE NUMBER OF WORDS READ CORRECTLY FOR EACH LINE. IF THE CHILD READ EVERYTHING IN LESS THAN ONE MINUTE, NOTE THE EXACT NUMBER OF SECONDS REMAINING ON THE TIMER. OTHERWISE, MARK '00' SECONDS.							<b>SUBTASK 7 – READING COMPREHENSION</b> After the child has finished reading, <b>take the card from the child</b> and ask the first question. If the child does not give any response after 10 seconds, repeat the question, and give the child another 5 seconds to respond. If the child still does not answer, go to the next question. Ask only those questions that correspond to the lines of text read by the child, up to the last line the child was able to read. "Now I am going to ask you a few questions about the story you just read.." Pose the corresponding questions to the child, <i>in Fulfulde</i> . "Djonimi diamete dow habaruji ko janguouda wad kokari gnotanam iyaka andal mada." A. Haden nyalloma oyé non? B. Dume Raabi yidi fa sooda? C. Iri toggoré nde Raabi yidi ? D. <b>Subtask 1: Receptive Oral Language</b>												
<p>This section is not timed and there are no stimuli for the child (to be administered orally).</p> <p>Interviewer states: “We are going to play a game, ok? I am going to give you instructions, and we can see if you can follow what I say.”</p> <p>Example 1: Interviewer states: “Point to your nose”. The interviewer points to his nose, and encourages the child to do the same. If the child points correctly, say “Bravo, that is correct!” If the child does not point, repeat the instructions and ask, “Can you point to your nose?”</p> <p>Example 2: Interviewer states: “Point to your head”. This time the interviewer does not point, but encourages child to point. If the child does not understand, the Interviewer states the instructions again and repeats the examples. If the child understands, start the test.</p> <p>If child makes 5 consecutive errors, stop and continue to the next subtask. If child does not respond, mark “No Response”, and continue to the next subtask.</p> <p>Ask each question in Tamasheq and note the response in the questionnaire.</p> <p><b>RESPONSE CODES: 1= CORRECT, 2= INCORRECT, 3= NO RESPONSE</b></p>

<b>Subtask 3: Listening Comprehension</b>												
<p>This is not a timed exercise and this is administered orally only. The Interviewer states “Now, I am going to read to you a story aloud ONE TIME. Afterwards, I will ask you some questions about the story. Listen carefully, and after you will answer the questions the best you can. Okay? Do you understand what are you supposed to do? Let’s begin! Listen carefully.”</p> <p>The interviewer reads aloud the short story, ONE TIME, slowly, (about 1 word per second), in the language of the test.</p> <p>After reading the text, ask the child each comprehension question and note the response. If the child does not give any response after 10 seconds, repeat the question, and give the child another 5 seconds to respond. If the child still does not respond, go on to the next question.</p>

-----------------	---	--	------------

### Subtask 5: Word Identification

This is a timed exercise and is administered using the test booklet.

Show the test booklet to the child for subtask 5. Explain the subtask in the child's maternal language, using the examples in the booklet. After explaining the examples, say "Ok? Do you understand what I am asking you to do? When I say "Start", read the words from left to right, line by line. At the end of the line, continue to the next line. Try to read quickly and correctly. Ready? Begin."

Start the timer when the child reads the first word. If the child does not respond after 10 seconds, mark 'Auto Stop'. Count self-corrections as correct. Stay quiet, except if the child hesitates for 3 seconds. In this case, point to the next word and say "Please go on." Mark the word as incorrect on the test sheet.

After 60 seconds say, "Stop and Thank you." Note the total number correct. If the child read everything in less than one minute, note the exact number of seconds remaining on the timer. Otherwise, if the child has not finished the exercise, mark '00' seconds.

Auto stop rule: If the child does not give a single correct response in the first 5 words, gently tell the child to stop, and mark 'Auto Stop'. Say "Thank you" and go on to the next subtask.

Mark the word as incorrect on the test sheet.</p> <p>Auto stop rule: if the child cannot read correctly a single word in the first two lines, stop the test and note "auto-stop". Say "thank you" and end the test.</p> <p>NOTE THE NUMBER OF WORDS READ CORRECTLY FOR EACH LINE. IF THE CHILD READ EVERYTHING IN LESS THAN ONE MINUTE, NOTE THE EXACT NUMBER OF SECONDS REMAINING ON THE TIMER. OTHERWISE, MARK '00' SECONDS.</p>							<b>SUBTASK 7 – READING COMPREHENSION</b> <p>After the child has finished reading, take the card from the child and ask the first question. If the child does not give any response after 10 seconds, repeat the question, and give the child another 5 seconds to respond. If the child still does not answer, go to the next question. Ask only those questions that correspond to the lines of text read by the child, up to the last line the child was able to read.</p> <p>"Now I am going to ask you a few questions about the story you just read." Pose the corresponding questions to the child, <i>in Tamasheq</i>. « əmarda ada kâga işəştānan fel əlquışatta tayrê. »</p> <p>a. Ayôra wa n'dar əzal ?</p> <p>b. Mâ tarâ Răbi as şat wazənzū ?</p> <p>c. Mâ fst tōlă tekarsat ta tağammay ?</p> <p>d. Tağraw tekarsat ta zağayāt ?</p> <p>e. Mâ tazlağ Răbi ?</p> <p><b>RESPONSE : 1=CORRECT, 2=INCORRECT, 3=NO RESPONSE</b>  <b>LANGUAGE OF RESPONSE : 01 FRENCH, 02 HAOUSSA, 03 ZARMA, 04 KANOURI, 05 TAMASHEQ, 06 FULFULDE, 96 OTHER (SPECIFY)</b></p>
