

# INTRODUCTION

HIES 2016

# OBJECTIVES OF THE SURVEY

HIES 2016

# OBJECTIVES

- The Household Income and Expenditure Survey (HIES) is one of the **core survey activities** carried out by the Bangladesh Bureau of Statistics (BBS).

# OBJECTIVES

- The main objective of the HIES is to collect data from the households located in Bangladesh.

# OBJECTIVES

This allows the government to:

- Conduct research on issues of policy interest.
- Monitor progress in national living standards and nutritional status.

# OBJECTIVES

This allows the government to:

- Formulate appropriate policies related to poverty reduction.
- Evaluate the impact of various policies and programs on the living conditions of the population.

# OBJECTIVES

Data from the survey is also used to estimate budget shares for the Consumer Price Index (CPI) and to update the System of National Accounts.

# SAMPLE DESIGN

HIES 2016

# SAMPLE DESIGN

The sample of households for the HIES 2016 was selected in **two stages**:

# SAMPLE DESIGN: FIRST STEP

At the first step, **36** Primary Sampling Units (**PSUs**) were selected in each of the 64 districts (**zila**).

# SAMPLE DESIGN: SECOND STEP

At the second stage, within **each** selected PSU, **20** households were selected for interviews.

This gives a total of **46,080** households!

# SAMPLE DESIGN

There are a **lot** of households!

- This means a lot of information.
- Therefore, it is important to be prepared!

# SAMPLE DESIGN

This is why the **field staff** is so important.

☐ But... who is the field staff?

# FIELD STAFF

HIES 2016

# FIELD STAFF

The fieldwork is organized into **128** teams, each of them composed of:

- One supervisor
- Two enumerators
- Two female facilitators

# SUPERVISORS

- They will **oversee, coordinate and monitor** the correct work of the interviewers.
- They will be also responsible for **administering** the community questionnaire.

# ENUMERATORS

- They will be responsible for **collecting** the data from selected households in each PSU using the household questionnaire.
- They will be also responsible for **entering** data from the household and community questionnaires into computers.

# FEMALE FACILITATORS

They will be **two** educated women **resident** in each selected PSU, that will accompany the interviewers during their household visits to **ease** their access to the family.

# FEMALE FACILITATORS

Ease the access to families means to:

Help in better understanding of local customs and dialects.

Administering certain parts of the questionnaire

# SURVEY PLAN

HIES 2016

# SURVEY PLAN

Two teams are **responsible** to cover the 36 PSU's within each Zila.

# SURVEY PLAN

During the whole **12 months** of fieldwork; therefore, each team should visit **18 EAs** during the year.

# SURVEY PLAN

To accomplish the job, each team **should stay** in one PSU during the period of **20 days**.

➤ Each of those 20-days periods is called **TERM**.

# SURVEY PLAN: TERM

During one **Term**, each interviewer and female facilitator pair will **visit** and **interview** 10 households each.

# SURVEY PLAN: TERM

Each team will thus cover **20**  
households each **Term**.

# SURVEY PLAN: TERM

Note that the survey period of 12 months has **18 terms**:

$$(360 \text{ days} / 20 \text{ days} = 18)$$

# WORK PLAN FOR ONE TEAM IN ONE PSU

HIES 2016

# WORK PLAN

We will now describe the  
workplan for **1 team**, in **1 PSU**  
during **1 Term**.

# WORK PLAN

Each enumerator, with a female facilitator, will be responsible of completing the interview for 10 of the households during the **Term**.

# WORK PLAN

The enumerators will visit each household 8 times, and will complete a part of the questionnaire during each visit.
